We will resume our presentation in 10 minutes
The Fourth Circuit Court of Appeals ruled in April 2016 that Title IX protections against sex discrimination apply to gender identity.

- This is the federal court whose rulings on Constitutional and federal law are controlling in North Carolina.

The ruling was made in a case from the Gloucester (Virginia) School Board.

- A transgender boy sued the district for its bathroom policy that required students to use restrooms according to their sex assigned at birth. Transgender students were to be provided “an alternative appropriate private facility.”

The effect of the Fourth Circuit ruling is that transgender students are entitled under Title IX to use the restroom at school that corresponds to their gender identity.

The school board has given notice it will appeal the case to the United States Supreme Court.

Unless the Supreme Court decides to hear the case and overturns the Fourth Circuit’s decision, the ruling remains in effect in North Carolina.

Privacy Concerns

https://vimeo.com/170654928/6630fad86a
A student’s transgender status is confidential.

FERPA allows schools to share education record information only with school employees “with a legitimate educational need to know.”

This means you should share a student’s gender identity status only with others at the school who need that information to effectively meet the student’s needs at school.

Student Services staff will work with school staff to develop a plan to safeguard a student’s transgender status and address privacy concerns.
Regulation JICK-R: privacy concerns

• Involvement of parents in the plan is determined in working with the student, considering the student’s age and health, wellbeing and safety concerns.

• Staff must take care not to “out” a student to others, including the parents of an older student, without the student’s permission. In contacting the parents, use the student’s name/pronoun on birth certificate unless student or parent says otherwise.
What if...

1. Parents are unaware of their child’s gender identity?
2. Staff inadvertently call a student by the wrong name or pronoun?

Names & Pronouns

https://vimeo.com/170654929/bd1f01f6ee
The official school record is the transcript; it must use the name and sex recorded on the birth certificate.

Nonofficial records must refer to transgender student by preferred names and pronouns.

- Examples are class rosters, yearbooks, event programs, diplomas, and report cards
- CMS Technology is working on a way to create class rosters that include preferred names so they don’t have to be done by hand.

Inadvertent slips may occur. Intentional refusals to use a transgender student’s preferred name/pronoun violate this regulation.
What if...

1. A staff member refuses to abide by these rules?
2. A student transitions and other students or staff have questions?
Names and pronouns support

• Technology investigating a workaround
• Toolkit:
  – Preferred Name form
Restrooms & Changing Facilities

https://vimeo.com/170654930/7259db7ce9
Regulation JICK-R: restrooms and changing facilities

• Students must have access to the restroom/changing facilities that correspond to their gender identity

• If there’s a request for increased privacy, any student should be provided a reasonable accommodation, such as:
  – Private or screened area in the same locker room
  – Separate changing facility schedule
  – Use of nearby private area
  – Assignment of locker in close proximity to staff office

• Upon request, schools may provide gender-neutral single-stall restrooms & locker rooms for all students.
1. A parent of a non-transgender student has concerns about their child’s safety?

2. A transgender student or parent has concerns about safety?
Restrooms and changing facilities support

- Operations is performing an evaluation of all schools
- Facilities will be updated to deliver reasonable accommodations
